Contents

Ahlgren S, Boylan M: Arithmetic properties of the partition function 487

Alladi K, Andrews GE, Berkovich A: A new four parameter q-series identity and its partition implications 231

Andrews GE → Alladi K

Balogh ZM, Buckley SM: Geometric characterizations of Gromov hyperbolicity 261

Berkovich A → Alladi K

Boylan M → Ahlgren S

Buckley SM → Balogh ZM

Burns D, Greither C: On the Equivariant Tamagawa number conjecture for Tate motives 303

Ein L, Mustaţă M, Yasuda T: Jet schemes, log discrepancies and inversion of adjunction 519

Gordon I: On the quotient ring by diagonal invariants 503

Greither C → Burns D

Guo Y: The Vlasov-Maxwell-Boltzmann system near Maxwellians 593

Hausel T, Thaddeus M: Mirror symmetry, Langlands duality, and the Hitchin system 197

Karpenko N, Merkurjev A: Essential dimension of quadrics 361

Karpenko N: On the first Witt index of quadratic forms 455

Kato K, Trihan F: On the conjectures of Birch and Swinnerton-Dyer in characteristic $p > 0$ 537

Kaup W, Zaitsev D: On the CR-structure of compact group orbits associated with bounded symmetric domains 45

Kisin M: Overconvergent modular forms and the Fontaine-Mazur conjecture 373

Klartag B, Milman VD: Isomorphic Steiner symmetrization 463

Klingler B: Sur la rigidité de certains groupes fondamentaux, l'arithméticité des réseaux hyperboliques complexes, et les "faux plans projectifs" 105

Kontsevich M, Zorich A: Connected components of the moduli spaces of Abelian differentials with prescribed singularities 631

Kuhlmann F-V: A correction to Epp's paper "Elimination of wild ramification" 679

Merkurjev A → Karpenko N

Milman VD → Klartag B

Mustaţă M → Ein L

Schneider P, Teitelbaum J: Algebras of p-adic distributions and admissible representations 145

Teitelbaum J → Schneider P

Thaddeus M → Hausel T

Trihan F → Kato K

Vezzosi G, Vistoli A: Higher algebraic K-theory for actions of diagonalizable groups 1

Vistoli A → Vezzosi G

Yasuda T → Ein L

Zaitsev D → Kaup W

Zorich A → Kontsevich M
